

Prize-Winning Playwrights and Their Plays

The plays in this list have all been nominees or winners of major theatrical or writing awards and are available in Helmke Library. Call numbers indicate the area in the Stacks where the works are shelved. Only one call number is listed but there may be other copies of the same play in the library. Check IUCAT. You may also want to **browse** in the area where one work is found to find other writings of interest.

To find other works by the same playwright or works by other playwrights, do an **Author search** in IUCAT: **albee edward**, for example.

The Call Number is for a **print** edition of the play unless otherwise indicated in the Notes.

Works that are available as Electronic Resources **only** will not have a call number. You will need to use IUCAT to access those items. If a play has a call number and an "E" in the next column, it is available in print and also as an electronic resource.

"C" indicates that the edition of the work listed is found in a collection. "L" indicates that the item is a libretto, "S" means it is a vocal score, and "X" is used when there are other formats for the item; see Notes for further details.

The awards used to select the plays are listed below along with their websites. Only the works under a "best play", "best playwrighting", or similar award have been chosen for this guide.
